Dear Mr. Lüttger,

Thank you again for taking the time to stop by and show us your slide presentation. I found it a remarkably vivid graphic chronicle of one person's inner journey. It is of interest not only as art, but as an informative communication from the vast regions of inner space that our society must learn more about if our civilization is to survive.

I'm not sure we were able to help you very much, but we were appreciative of what you did for us.

With all best wishes

Willis Harman
